

## mediacockpit 11.1 | Release September 2021

In MC 11.1 löst das Modul mediatext den Vorgänger Textpool ab. Die komplette Überarbeitung der Textübersetzung und Funktionserweiterung ist die grösste Veränderung in diesem Release. Die Logik des Textmanagements wurde von Grund auf neu konzipiert und umgesetzt. Aufgrund dieser Entscheidung hat das Datenbankschema einige positive Änderungen erfahren, welche wiederum positive Leistungssteigerungen mit sich zieht.

Neben der neuen Textverwaltung wurde viel Energie in die Härtung und Stabilität des Systems investiert. Viele Bugfixes und Funktionsverbesserungen wurden realisiert. Eine Liste all dieser Anpassungen findet sich am Ende dieses Dokuments.

### mediatext

Textverwaltung einfach und übersichtlich

- Umfangreiche Suchen
- Übersichtliche Darstellungen der Texte und deren Übersetzungen
- Verwendungsnachweis
- Anbindung von Translation- Management-Systemen (TMS) über Übersetzungsexport- und import

The screenshot displays the mediacockpit 11.1 interface. The top navigation bar includes the mediacockpit logo, a search bar, and user information. The main content area is divided into a search filter sidebar on the left and a table of text sets on the right. The search filter sidebar includes options for 'Search within result', 'Reset all', 'Advanced search', 'Text Type', 'Status', and 'Language'. The table of text sets has columns for 'External key', 'Text %', 'Status', 'Language', 'Text Type', and 'Actions'. Below the table, the 'Detail view' for a specific text set is shown, including 'Base data', 'Translation', and 'Usage' tabs. The 'Translation' tab shows a table with columns for 'Language (Master locale)', 'Language', 'Version: 1', and 'State'.

External key	Text %	Status	Language	Text Type	Actions
	linear attenuation coefficient, linear extinction coefficient, linear absorption coefficient	Edit	English	Configuration	
	linear density, linear mass	Edit	English	Configuration	
	linear electric current density, lineic electric current, magnetic field strength	Edit	English	Configuration	
	linear energy transfer	Edit	English	Configuration	
	linear expansion coefficient, cubic expansion coefficient, relative pressure coefficient	Edit	English	Configuration	
	linear ionization by a particle, total ionization by a particle	Edit	English	Configuration	
	linear strain, relative elongation, shear strain, volume or bulk strain	Edit	English	Configuration	
	Lingale	Edit	English	Configuration	
	Linktype 1 1:3	Edit	English	Configuration	
	liquid pint (US)	Edit	English	Configuration	
	liquid quart (US)	Edit	English	Configuration	
	Lithuania	Edit	English	Configuration	
	Lithuanian	Edit	English	Configuration	

Language (Master locale)	Language	Version: 1	State:
German	English		
	French		
	Lithuanian		

- Die neue mediatext Toolbar ermöglicht dem Benutzer den schnellen Zugriff auf Übersetzungsinformationen
- Umschaltung bestehendes/neues Textset zuweisen oder bestehendes überschreiben
- Zurücksetzen auf alten Wert
- Vorhandene Übersetzungen des Textsets
- Verwendungen des Textsets im System
- Verknüpfung des Textsets in mediatext
- Vorschlagsliste
- Änderungshistorie

### Base data

ID

Name

Description **mediatext**  Begins with  
The text of the used text set will be overwritten.

Internal key Lithuania

Active litre

Iso 2 code litre per day

Iso 3 code litre per minute

litre per mole

Text sets > foreur

Base data Translation **History of change** Usage

**History of change** MASTER LANGUAGE: German

Date modified <sup>1</sup>	Language	Change <sup>1</sup>
14-12-2021 17:28:21	English	User 'root' has added text 'Bohrer'.
14-12-2021 17:29:09	French (Belgium)	User 'root' has added text 'foreur'.
14-12-2021 17:29:09	22 EN name	User 'root' has added text 'Drill'.
14-12-2021 17:29:09	German	User 'root' has added text 'Bohrer'.

## Neue Features

### **Microsite für den Download von Auswahlen**

In der Microsite kann nun nach Assets gesucht und die Spalten des Suchergebnisses gefiltert werden.

### **Numerische Aufzählungsattribute**

Aufzählungsattribute können nun auch numerische Werte enthalten.

Nach diesen kann über die

Bereichssuche gesucht werden.

### **Objektattribute nun auch regionsabhängig**

Für Objektattribute können nun auch Werte für verschiedene Regionen gepflegt werden.

### **E-Paper Viewer**

Direkter Sprung auf eine Seite des E-Papers ist nun möglich. Das E Paper kann nun mit einer weiteren Zoomstufe noch detaillierter betrachtet werden.

### **XML-Export von Assetdaten**

Der XML-Export unterstützt nun auch Assetdaten .

### **Verwendung von Assets in Sortimenten**

Auf der Detailseite des Assets sieht man nun auch die Verwendung des Assets in Sortimenten.

### **Tabellenkonfiguration**

Attribute können nun einfacher ausgewählt werden.

Tastaturbedienung wurde überarbeitet und verbessert

### **Reporting Widgets für Dashboard**

Die Diagramme aus dem Bereich Reporting können nun auch auf dem Dashboard angezeigt werden.

### **Reporting Produktstatus**

Es kann nun ein Bericht über mehr als einen Status eines Produkts erstellt werden

## Anpassungen und Bug-fixes

### Release Notes - mediacockpit Product - Version 11.1

#### \*\* Inquiry

- \* [MC-13185] - suite/pim - mediatext - multi indexing
- \* [MC-13606] - textpool - Prototyp/Abnahme Konzept v5
- \* [MC-14858] - admin - imports / publications - import types / publication types - importmap / publication filter - fields configuration - modal check
- \* [MC-14931] - Code-Änderung im Portal für Projekt-Customizing
- \* [MC-14933] - mctrunk Textpool Migration
- \* [MC-15014] - Code-Änderung im Portal für Projekt-Customizing
- \* [MC-15055] - admin - Processes - Background processes - detail - default „finalize“ even in error cases?
- \* [MC-15071] - core - node reader - get inherited classifications
- \* [MC-15117] - cockpit - reporting - data quality reporting with classification attributes
- \* [MC-15199] - Code-Änderung im Portal für Projekt-Customizing
- \* [MC-15205] - mediatext - own svn module
- \* [MC-15221] - textpool - umgang mit locale in DataValueTO
- \* [MC-15222] - mc11.1 - textpool migration - erfahrungswerte
- \* [MC-15293] - cockpit - Unable to acquire JDBC connection
- \* [MC-15363] - streaming/downloading files using fileld even though the session is invalid/expired
- \* [MC-15407] - mediatext - usage tab - not in use
- \* [MC-15473] - admin - users & authorization - users - base data tab - user name ≠ header name
- \* [MC-15481] - admin - attributes - attribute profiles - base data tab - part of the internal keys is strange
- \* [MC-15485] - core - editor - HGP- und Actionlet-Monitoring: Fehler bei Datums-Filterung bei UI-Sprache != de
- \* [MC-15506] - ext - keycloak user login mapping
- \* [MC-15513] - BMECat-Import bricht ab
- \* [MC-15546] - Unklarheiten/Fehlermeldungen bei der Durchführung Update-Scripte
- \* [MC-15551] - BMEcat2005ImportAction | Methoden auf protected gesetzt
- \* [MC-15570] - test dcm/webdcm import with new mediatext model
- \* [MC-15573] - publisher - assortment view - tree - tree filter - with filter (de)activating a node takes way longer
- \* [MC-15579] - cockpit - reporting - widgets - display problems after resizing
- \* [MC-15594] - Locale for multi indexing notification
- \* [MC-15615] - admin - Dashboard - Widgets Statistics - breakes Dashboard if no statistic data present
- \* [MC-15622] - ext - cloudservices - s3 content store - download servlet
- \* [MC-17873] - gui - mediatext - set correction flag
- \* [MC-19691] - load test aws serverless db
- \* [MC-20938] - gui - detail - translation - add formatted field + text toolbar + text suggestions
- \* [MC-20939] - gui - detail - text toolbar
- \* [MC-20947] - suite - categories - base data tab - no name should be generated if I don't do it manually
- \* [MC-20970] - pim - classification - class - classification attributes tab - automatic unassign of attributes
- \* [MC-20995] - publisher - publication view - detail - publication filter - force delete attributes cause failures
- \* [MC-20996] - admin - imports / publications - import types / publication types - importmap / publication filter - adding fields
- \* [MC-20999] - core - getter for the filter (MapFilterPublish) needed for project customizing
- \* [MC-21030] - Wie bekomme ich bei einem Hotfolder Import von Nodes die Import-Datei am Profil archiviert?
- \* [MC-21059] - gui - detail - translation - territory dependents attributes - wrong display
- \* [MC-21064] - core - workflows stop processing (WFLYTX0016: Transaction started in EE Concurrent invocation left open)
- \* [MC-21086] - suite/pim - detail - relations - Patch
- \* [MC-21090] - FTI - entity not found
- \* [MC-21093] - mediatext - migration - large databases
- \* [MC-21127] - suite - shared asset selection - display of asset in trash
- \* [MC-21150] - cockpit - reporting - detail - current charts

#### \*\* Bug

- \* [MC-11915] - Metaspace Memory leak with Groovy Engine
- \* [MC-13480] - spreadsheet - mouse over asset upload area shows last uploaded asset
- \* [MC-13778] - suite/pim - select2 - multivalue enumeration - deselect all does not work with many values
- \* [MC-13958] - gui - search result - problem of width
- \* [MC-14016] - suite/pim - pinboard - wizard - confirmation popup at saving message

- \* [MC-14123] - suite/pim - pinboard - Edit news - Attach images - Search filter not scrollable
- \* [MC-14124] - suite/pim - pinboard - Edit news - Attach images - Table view
- \* [MC-14143] - cockpit - Dashboard - Widget Highlights - Table header
- \* [MC-14287] - admin/project/import - search within result filter - logic „AND“ check
- \* [MC-14438] - suite - result - epaper - Changing asset types
- \* [MC-14537] - suite/pim - selection - sorting - selection item prio + Do not display any results if no search criteria have been set => empty list
- \* [MC-14602] - admin - administration - users - rights - absence of the unique constraint on the internal key
- \* [MC-14617] - suite/pim - selection - sorting - item selection prio - prio gets lost after page switch
- \* [MC-14686] - suite/pim - multi indexing - attributes - inherited attributes are shown but ignored
- \* [MC-14701] - admin - dashboard - widget - users/user group - sorting issues
- \* [MC-14708] - admin - configuration - attribute - attributes - collections
- \* [MC-14711] - suite/pim - selection - create new selection at selection does not update selection list
- \* [MC-14713] - admin - sorting
- \* [MC-14726] - suite/pim/admin/publisher/project - detail view - permissions tab - inheritance of parent - update bug
- \* [MC-14734] - suite/pim - multi indexing - attributes - attribute profile - asset attributes cannot be edited
- \* [MC-14739] - suite/pim - detail - tab configuration - power user sollte nicht alle Tabs sehen
- \* [MC-14745] - suite/pim - multi indexing - attributes - update view - error at switching page while value loading
- \* [MC-14747] - pim - classifications - After creating a new classification system the tree needs a manual refresh
- \* [MC-14758] - admin - configuration - attribute - attributes - input tab - for DT price
- \* [MC-14760] - admin - configuration - attribute - attributes - input tab - for enumeration (DT text)
- \* [MC-14761] - admin - configuration - background process - detail - base data - sorting group members shows modal at leaving
- \* [MC-14764] - admin - configuration - object hierarchy type - extended search - separating values per comma does not work
- \* [MC-14782] - admin - search / details pages - some small adjustments in certain entities
- \* [MC-14809] - admin - lists - advanced search - non exact match does not work like in suite/pim
- \* [MC-14813] - admin - configuration - attribute - attributes - header search - long loading time without any result
- \* [MC-14823] - suite - detail - attributes - can't save attributes
- \* [MC-14839] - cockpit - reporting - status report - label missing or not correctly used:
- \* [MC-14878] - gui - modals with a tree - modals break with long branches
- \* [MC-14882] - admin - configuration - attribute - attributes - input tab - confirmation required modal according to the DT configurations
- \* [MC-14892] - admin - details view - attribute values tabs - DT asset - the theme should be the one of media suite
- \* [MC-14900] - admin - side panel - added filters (from the advanced search) should remain displayed after reset
- \* [MC-14904] - admin - attributes - search page - sorting by data type eliminates text blocks
- \* [MC-14906] - admin - attributes - copy/move action - recently selected collection - inconsistent results
- \* [MC-14907] - pim - side panel - Klassifikation - Kleinere Probleme mit more-Button
- \* [MC-14909] - suite/pim - search filter - searching in type search is not possible anymore
- \* [MC-14916] - admin - header path - the name of the sections is not always correct
- \* [MC-14917] - suite - gallery view - problems with scrolling and single action menu under certain circumstances
- \* [MC-14925] - Migration von persistierten Suchen
- \* [MC-14929] - Wildfly Server Provisioning
- \* [MC-14932] - gui - detail - attribute - formatted text
- \* [MC-14936] - admin - detail views - problems with save
- \* [MC-14937] - admin - views - action rights - clicking generates errors
- \* [MC-14940] - admin - attributes - attributes - enumeration - opening a detail view with many values does not work
- \* [MC-14941] - cockpit - flyout - processes - switching between lists (running, waiting), etc.) does not work anymore
- \* [MC-14943] - mediapublisher/mediaimport - publicationsview - detail view of publication type is mixed up with mediaimport
- \* [MC-14945] - admin - attributes - collections - items (attributes) tab
- \* [MC-14947] - admin - attributes - collections - hierarchy tab
- \* [MC-14948] - admin - configuration - attributes - collections - permissions tab
- \* [MC-14950] - publisher - publicationview - publication profile - detail - wrong publications list at opening in publications tab
- \* [MC-14955] - suite/pim - selection - Erstellen einer neuen Auswahl wirft Fehler
- \* [MC-14969] - admin - Side panel - search within result filter - sorting
- \* [MC-14971] - admin - international - units - side panel - search within result & categories don't work together
- \* [MC-14972] - admin - attributes - attributes - side panel - search within result & attributes collection don't work together
- \* [MC-14974] - Admin - International - Dictionary - Dictionary Items tab - Save doesn't work
- \* [MC-14975] - suite/pim - multi indexing - new text data model
- \* [MC-14977] - suite/pim - detail - attributes tab - failures occur
- \* [MC-14978] - suite/pim - multi indexing - navigation
- \* [MC-14983] - suite/pim - search result - table configuration - add new / edit configuration
- \* [MC-14984] - admin/projects - collections - base data tabs - owner must not be allowed to be empty
- \* [MC-14989] - admin - users & authorization - user groups - base data tab - territory dropdown - should be able to be null

- \* [MC-14990] - gui - creating notification
- \* [MC-14991] - projects - task types - base data tab - required right dropdown - corrections
- \* [MC-14993] - admin - assets - asset types - hotfolder - base data tab - attribute profile dropdown - should be able to be null
- \* [MC-14994] - admin - imports / publications - configuration export / import - missing label
- \* [MC-14995] - cockpit - hedaer - user profile - my profile - „Reset to default“ for detail view throws exception
- \* [MC-14996] - suite/pim - detail - attributes - preview should be displayed in all locales
- \* [MC-14997] - editor - control panels - dictionaries - the link leads to assets > medien
- \* [MC-15001] - suite/pim - Textpool Adjustements - Exception on empty DB
- \* [MC-15002] - suite/pim - detail - Translation tab - Error
- \* [MC-15003] - suite/pim - Detail - Attribute - Gültigkeit
- \* [MC-15006] - suite/pim - detail - Attribute tab - Error
- \* [MC-15007] - admin - international - countries - detail - Error
- \* [MC-15009] - publisher - publicationsview - insert category right does not work
- \* [MC-15010] - admin - user - add user - not possible because of allegedly already given user or group
- \* [MC-15011] - suite/pim - detail - basedata - Typattributkategorien sind in unterschiedlicher Reihenfolge
- \* [MC-15012] - suite/pim - attribute profiles - working with multi language attributes not possible
- \* [MC-15015] - admin - attributes - attributes - detail - edit multivalue flag
- \* [MC-15017] - admin - publications - publication type - edit channel map
- \* [MC-15021] - suite/pim - selection - header - Anzeige vom Counter
- \* [MC-15024] - suite/pim - search result - selections - Adding the assets to a selection
- \* [MC-15025] - admin - imports / publications - import & publication types - base data tabs - quick access - link causes failures
- \* [MC-15028] - suite - detail - Comments tab - Error
- \* [MC-15030] - suite/pim - pinboard - Attach images/objects - „Reset functionalities do not work correctly
- \* [MC-15032] - mediacockpit - detail - Tabs header - Separator line is missing everywhere
- \* [MC-15033] - REST - Kategorie einfügen-Recht wird nicht immer korrekt zurückgegeben.
- \* [MC-15036] - mediaimport - imports - detail - import profiles panel
- \* [MC-15038] - admin - Imports / Publications - Publication types - Base data tab - Quick access to background process in use - Error
- \* [MC-15042] - Probleme beim Laden des Spreadsheets bei nicht vorhandenen geerbten Werten bei sprachabhängigen Texten
- \* [MC-15043] - suite/pim - Detail - view - free configurable tab - child objects - table configuration menu does not adjust its position correctly
- \* [MC-15044] - suite/pim - detail - attribute - UND-Symbol im Text führt zur Anlage eines Textduplikats
- \* [MC-15045] - admin - Views - Views - element - choosing a concrete OA should not be mandatory
- \* [MC-15046] - admin - international - units - search page - move doesn't work
- \* [MC-15050] - admin - users & authorization - users - base data tab - default & translation language - should be able to be null
- \* [MC-15051] - admin - assets / objects - asset / object relation types - base data tab - name seen from target - can't edit
- \* [MC-15052] - admin - assets - asset types - hotfolder - base data tab - days to keep (rejected files)
- \* [MC-15053] - admin - processes - background processes - base data tab - fields for which the default value must be null
- \* [MC-15058] - suite/pim - Log > 60 MB errors from corrupt search filters and saved searches in 20 minutes and one user
- \* [MC-15059] - suite/pim - spreadsheet - Fehler bei OA-Spalten
- \* [MC-15061] - publisher - admin - add field - exception when add a big number of fields
- \* [MC-15066] - admin - Processes - Background processes - 504 Gateway Time-out
- \* [MC-15068] - suite/pim - search filter - reset buttons do not work as expected
- \* [MC-15069] - admin - imports / publications - import / publication types - import map / publication filter tabs - problem during configuration
- \* [MC-15070] - MySQL Update-Skripten für mc9 haben Syntax-Fehler
- \* [MC-15074] - suite/pim - spreadsheet - read only attributes can be edited
- \* [MC-15075] - suite/pim - pinboard - edit news - attach images - „Show all filters“ button is not shown completely
- \* [MC-15076] - projects - project - detail view - basedata - save when edit name doesn't work
- \* [MC-15077] - admin - international - dictionaries - dictionary items tab - remove empty rows on save
- \* [MC-15084] - admin - imports / publications - publication types - base data tab - create map export workflow - I cannot create new
- \* [MC-15086] - suite/pim/admin - detail view - permissions tab - save as profile causes failures
- \* [MC-15087] - admin - side panel - search filters + tree categories - all levels checkbox does not work properly
- \* [MC-15089] - suite - PUUpload doesn't work for locale french
- \* [MC-15097] - suite/pim - detail - CKEditor und Linebreaks
- \* [MC-15100] - admin - processes - background processes - empty list after adding a background process
- \* [MC-15106] - suite - selection - Paging count for gallery view not constant
- \* [MC-15107] - epaper - error when epaper uploaded
- \* [MC-15110] - admin - Users & Authorization - Users - detail - user can't be deactivated
- \* [MC-15113] - core - mandatory calc does not respect classes from parent
- \* [MC-15114] - core - replace asset version flag does not work for first version
- \* [MC-15122] - suite/pim - detail - links - move column by D'n'D
- \* [MC-15124] - pim - classification - detail - Tab Attributes - ERROR

- \* [MC-15125] - pulisher - assortment view - edit collection - Tab Attributes - assign attributes - ERROR
- \* [MC-15128] - admin - User & Authorization - Right profiles - detail - ERROR
- \* [MC-15131] - suite - search result - show in printview - Creation of PDF print preview of images empty
- \* [MC-15132] - admin - processes - background processes - copying a process also renames the original
- \* [MC-15133] - admin - processes - background processes - using the search filter does not work like in 11
- \* [MC-15137] - admin - configurations - import / publication types - importmap / publication filter - adding fields
- \* [MC-15138] - admin - configurations - import / publication types - importmap / publication filter - bug when I download / upload
- \* [MC-15139] - suite - selection - edit filename for selection zip not possible
- \* [MC-15140] - cockpit - Guestlogin saves last searchfilter
- \* [MC-15141] - suite - selection - Selection Name wird falsch angezeigt
- \* [MC-15145] - admin - Processes - Workflow types - Detail view - State transition types - states cannot be renamed
- \* [MC-15147] - admin/project/import - detail view - base data tab - name field - placeholder is missing
- \* [MC-15148] - admin - problem of access to the details view for some entities
- \* [MC-15152] - admin - users & authorization - right profiles - details view - access failure
- \* [MC-15153] - admin - processes - background processes - base data tab - BP associated with this group - wrong results
- \* [MC-15155] - admin - processes - background processes - base data tab - exclusive group - input field
- \* [MC-15156] - admin - processes - background processes - updating the search after deletion causes failures
- \* [MC-15158] - mediaadmin Suche nach Attributen bei einer View
- \* [MC-15162] - suite - detail - versions - opening table configurations panel fails after version upload
- \* [MC-15163] - suite/pim - detail - base data - close collapsible
- \* [MC-15164] - admin - control - statistic - export all - performance
- \* [MC-15167] - suite - detail - state - doubled target state instead of „Please select“
- \* [MC-15168] - suite/pim - share selection with edit rights
- \* [MC-15172] - suite/pim - search result - WebDCM warnings / NPE
- \* [MC-15175] - admin - attributes - attributes - collection tree - using tree filter with one letter leads to an exception
- \* [MC-15177] - admin - attributes - attributes - enumeration - opening translation tab with many standard values does not work
- \* [MC-15178] - suite - categories - detail view - hierarchy tab - mass delete - always deactivated
- \* [MC-15179] - force delete of standard values
- \* [MC-15180] - admin/import/project - search pages - searches performed in the header are not displayed in the search within result
- \* [MC-15181] - admin - imports / publications - import types - import map tab - id field
- \* [MC-15182] - suite/pim - detail - page navigator
- \* [MC-15189] - cockpit - reporting - data quality - Suche nach name/extKey ohne gefundene Objekte erzeugen keinen Report
- \* [MC-15190] - cockpit - reporting - data quality - Suche nach Publikation oder Export erzeugt JSON-Error
- \* [MC-15193] - admin - Users & Authorization - Users - detail - service user role
- \* [MC-15195] - admin - control - statistic - paging - selected rows are not remembered at page switching
- \* [MC-15197] - pim - pinboard - Attach objects - Choosing a classification shows „Something went wrong“
- \* [MC-15198] - admin - control - statistic - Sort by user - Error
- \* [MC-15203] - import - import profile type - add import profile type modal - wrong header label
- \* [MC-15207] - pim - classification - attributes for assigned classifications not filtered in the configuration popup
- \* [MC-15212] - suite/pim - select all / select page -> deselect
- \* [MC-15213] - admin - attributes - attributes - filter by attribute type - NPE
- \* [MC-15216] - suite/pim - multi indexing - „Bearbeiten der Attribute“ wird doppelt angezeigt
- \* [MC-15217] - suite/pim - search result - smartsheet (web dcm) modal problem with page opened twice
- \* [MC-15226] - suite - Inconsistencies in paging behaviour
- \* [MC-15233] - cockpit - Reporting - chart with obj hrc with blank in name
- \* [MC-15235] - suite/pim - table configuration
- \* [MC-15240] - suite/pim - detail - attributes - configure attributes - manually sorting attribute types only seems to be possible
- \* [MC-15241] - suite/pim - detail - attributes - Preise können in der Detailansicht nicht gelöscht werden
- \* [MC-15242] - contrib - assetRI - no authentication performed - potential DoS
- \* [MC-15245] - rest api - attribute create - dbboolean do not work correctly
- \* [MC-15247] - suite/pim - pinboard - edit/create message - Error after saving in last step
- \* [MC-15249] - admin - attributes - attributes - save and close create modal does not work anymore
- \* [MC-15250] - admin - attributes - attributes - detail - input - changed sample and default values are not saved
- \* [MC-15253] - projects - task type - detail - translation - name not translatable if type has usages
- \* [MC-15255] - suite/pim - detail - attributes - Exception at opening tab
- \* [MC-15260] - admin - Views - Views - detail - Exception at opening a new view
- \* [MC-15261] - admin - Views - Views - detail - View builder - Exception at creating a new section

- \* [MC-21069] - suite/pim - selection - base data - missing mediatext implementation
- \* [MC-21070] - suite/pim - pinboard - news - edit/create - missing mediatext implementation
- \* [MC-21072] - suite/pim - spreadsheet - error
- \* [MC-21075] - cockpit - reporting - Fehler beim sortieren nach externen Schlüssel
- \* [MC-21077] - publisher - publication view - cannot create publication profile
- \* [MC-21079] - gui - detail - translation - can't change value in ML
- \* [MC-21082] - publisher - assortment view - pdf preview button does not use textpool correctly (and does not work)
- \* [MC-21084] - core - dvasset - language independent dvasset
- \* [MC-21085] - admin - attributes - attributes - tree elements get displayed twice
- \* [MC-21087] - admin - attribute - multivalued selection is changed when saved (!)
- \* [MC-21088] - gui - detail - error loading
- \* [MC-21089] - suite - asset view - Search page - Error message
- \* [MC-21092] - suite/pim - search - search history can't delete or add
- \* [MC-21094] - Am Attribut zugewiesene Einheiten werden bei Änderung des Datentyps aus DB nicht entfernt
- \* [MC-21095] - suite - shared asset selection - Download selected assets (ZIP-file)
- \* [MC-21107] - cockpit - reporting - list/detail - slow and OOM
- \* [MC-21114] - suite/pim - pinboard - creating a new article fails if I don't fill in the required fields
- \* [MC-21121] - suite/pim - Spreadsheet - Shared spreadsheet view bug
- \* [MC-21124] - Microsite User soll kein Zugriff auf Editor haben
- \* [MC-21126] - suite/pim - spreadsheet - double values
- \* [MC-21129] - admin - imports / publications - import types / publication types - importmap / publication filter tabs - classification attributes must be checked
- \* [MC-21130] - admin - attributes - attributes - input tab - checking the crud with the different DT
- \* [MC-21132] - Migration textpool: Remove content of stringValue from locale dependent DVText after migration
- \* [MC-21133] - Import bricht ab - Aufzählungsattributen mit 1.000 Attributen und doppelter externer Schlüssel
- \* [MC-21134] - gui - detail - translation - the field gets partly hidden at small column width
- \* [MC-21136] - gui - table model are loaded on onInitialize
- \* [MC-21137] - gui - detail - translation - text toolbar - translations - list does not overlay copy button

- \* [MC-21138] - suite/pim - multi indexing - attributes - text suggestions - yellow hint should be removed
- \* [MC-21139] - admin - Processes - Actionlets for PowerUser
- \* [MC-21141] - publisher - modals - missing text toolbar
- \* [MC-21142] - suite/pim - modals - missing text toolbar
- \* [MC-21144] - gui - modals - collections - missing text toolbar
- \* [MC-21146] - gui - mediatext - base data text toolbar - „open in mediatext“ does not work anymore
- \* [MC-21149] - admin - attributes - attributes - add category - text suggestions - list is of type config, gets saved as content
- \* [MC-21151] - cockpit - reporting - base data - mediatext - text toolbar is missing
- \* [MC-21153] - suite/pim - multi indexing - certain allowed states are wrong
- \* [MC-21154] - mediatext - detail - translation - tab cannot be opened
- \* [MC-21155] - cockpit - notification - detail - download of attachments fails
- \* [MC-21158] - pim - detail - hierarchy - tab does not load with long list of children
- \* [MC-21167] - gui - detail - attributes - enumeration - adding values does not work anymore
- \* [MC-21171] - gui - mediatext - switchign too a new textset should not copy conceptual description from former textset

## \*\* Feature Request

- \* [MC-7802] - Attribute auf Collections
- \* [MC-13065] - admin - attributes - attributes - Wildcard-Suche für interner Schlüssel
- \* [MC-13500] - Groovy includes only bare minimum library
- \* [MC-13967] - Vorgabewerte für Attribute mit einem numerischen Datentyp
- \* [MC-14772] - suite/pim - multi indexing - hide read-only fields
- \* [MC-15039] - mediaimport - imports - CRUD for import types
- \* [MC-15054] - publisher - assortments - drag and drop - allow select anywhere on object
- \* [MC-15081] - suite/pim - detail - attributes - territory dependent object attributes
- \* [MC-15186] - suite/pim - detail - attributes - keep attribute filter and open/close on screen when scrolling
- \* [MC-15323] - suite/pim - multi-indexing - working with multiple object/asset types at once
- \* [MC-15324] - spreadsheet - show image derivate for assets
- \* [MC-15334] - ePaper Schreibweise
- \* [MC-15384] - suite - search result - Löschen ohne Prüfung nicht möglich
- \* [MC-15409] - suite/pim - webdcm - do not export images
- \* [MC-15545] - cockpit - reporting - product state
- \* [MC-15565] - suite/pim - side panel - facet search - Support multiple facet values for a field in full-text index
- \* [MC-15608] - suite/pim - detail view - attributes tab - numeric enumeration - add / edit modal
- \* [MC-15628] - pim - nodehrc - detail - internaldescription
- \* [MC-20912] - import - language dependend units
- \* [MC-21034] - gui - detail - translation - master locale unclear
- \* [MC-21073] - epaper - page enhancements
- \* [MC-21135] - suite - epaper Google+ aus ePaper Links entfernen

## \*\* Improvement

- \* [MC-7059] - cockpit - reporting - widgets
- \* [MC-10486] - core - Status - Besseres Handling von deaktivierten Workflows bzw. Status
- \* [MC-11625] - suite/pim - pinboard - access to selection(s)
- \* [MC-13144] - migrating from itext to openpdf
- \* [MC-13888] - pim - Site panel - filter products based on their assortment - permission check
- \* [MC-14194] - admin - side panel - search filter - Remember filter settings
- \* [MC-14265] - suite/pim - multi indexing - Kein Objekt hat Attributwerte, User klickt „Open all attributes“, User sieht dann nur die „Close attributes“

## links

- \* [MC-14412] - suite - multi indexing - category - too many toastrs at moving to multiple categories
- \* [MC-14473] - projects - cockpit - widget
- \* [MC-14506] - pim - search result - Search filter - Search history - finetuning
- \* [MC-14614] - admin - dashboard - user group widget - header blinking
- \* [MC-14650] - cockpit - Header - Flyout Notifications - finetuning
- \* [MC-14677] - suite/pim - lists - sorting - adding criteria per table header (display string, prio,...) as first criteria
- \* [MC-14706] - admin - configuration - attribute - attributes - tree update
- \* [MC-14720] - suite - detail - object assignement - link asset as attribute - Coherent read rights for attributes
- \* [MC-14729] - suite/pim - detail - attributes - attribute configuration - activate new collections automatically
- \* [MC-14752] - admin - configuration - attributes - pin button at adding new attribute modal

- \* [MC-14790] - cockpit - dashboard - widgets - my tasks - two small improvements
- \* [MC-14861] - cockpit - header - menu - level 1
- \* [MC-14862] - cockpit - header - menu - level 2/3
- \* [MC-14866] - suite/pim - detail - width of input or value display when value contains no spaces
- \* [MC-14944] - admin - modals - pin button at creating objects (like object types, attributes, etc.)
- \* [MC-14951] - cockpit - header - search - Delete icon too big
- \* [MC-14952] - refactor use of DO.save()
- \* [MC-14970] - suite/pim - detail - attribute - assign OA modal - search for attribute should be „is contained“
- \* [MC-14979] - suite/pim - detail - Attributes tab - Modal assign attributes
- \* [MC-14980] - suite/pim - menu - sync sorting of stored searches and history with panel
- \* [MC-14981] - admin - attributes - result - table
- \* [MC-14986] - suite/pim - detail - attributes - attribute configuration - sync display with slider if no type is activated
- \* [MC-14987] - admin - search for action using „contains“ instead of „begins with“
- \* [MC-14988] - webdav api v2 - support various clients
- \* [MC-14992] - core - DBDialectResolver does not correctly identify new mariadb (mysql branch) databases
- \* [MC-14998] - cockpit - header - user profile - „Reset to default“ may also at mediaadmin
- \* [MC-14999] - suite/pim - detail - attribute - user defined attribute with unit
- \* [MC-15013] - cockpit - flyout - processes - no horizontal scrolling because of long process names
- \* [MC-15018] - admin - Control - System logs - improvements
- \* [MC-15027] - cockpit - login page
- \* [MC-15034] - admin - Processes - Workflow types - search result - delete should be possible like in editor
- \* [MC-15056] - admin - consistent usage of text descriptions for actions and state and field handlers
- \* [MC-15057] - pim - Classification - detail - info button for attribute assignment „unexpected location“
- \* [MC-15063] - admin/import - search filter - string filters - additional feature should be added
- \* [MC-15065] - suite/pim - detail - HTML preview - long name/description without spaces destroy layout
- \* [MC-15085] - DCM Import: „leere“ Spalte in Excel wirft Exception
- \* [MC-15108] - pim - Classification - detail - tab classification attributes - adjustments
- \* [MC-15134] - admin - creating entity - remove unnecessary try to add a component without a target page
- \* [MC-15149] - admin - Processes - Workflow type /Views - Views - opening translation fields should keep changes in name/description
- \* [MC-15159] - gui - detail view - tab header - streamline header tops
- \* [MC-15160] - labels - escaping problems with umlauts
- \* [MC-15170] - publisher - publication view - detail - publication filter - creating profile results in empty channel map fields
- \* [MC-15185] - mediaimport - side panel - delete import profile type / import profile is missing
- \* [MC-15194] - admin - imports - detail - import profiles - adopt implementation to MC-14272
- \* [MC-15210] - mediacockpit - side panel - notifications - select all as read does not update immediately
- \* [MC-15237] - publisher - assortment view - assign products - search filters can't be closed
- \* [MC-15238] - suite/pim - selections - sort via D&D - toggle icon too big
- \* [MC-15239] - cockpit - header - menu - level 1 - order
- \* [MC-15244] - suite/pim - side panel - allDocumentsField in FulltextSearch
- \* [MC-15246] - mediaadmin - configuration - views - Tab view builder - german translation
- \* [MC-15258] - publisher - publicationsview - publication profile - detail - publication filter - wider initial field handler class column
- \* [MC-15259] - publisher - publicationsview - publication profile - detail - publication filter - contains search in column „field handler class“
- \* [MC-15275] - suite/pim/admin - detail - history of change tab - additional corrections
- \* [MC-15276] - suite/pim - detail - history of change tab - download file button should be aligned with the hamburger button
- \* [MC-15286] - admin - attributes - enumeration attributes - adjustments when the DT is multiline
- \* [MC-15302] - mediatext - text view - detail - breadcrumb - show useful info instead of just the ID
- \* [MC-15303] - mediatext - text view - detail - base data - Show language of entry
- \* [MC-15305] - mediatext - text view - add text - add pin button
- \* [MC-15311] - pim - table configurations - classification - Simplify choosable classes
- \* [MC-15314] - mCatalog3 - RelationType in mRepository für die prio des RelationTypes
- \* [MC-15331] - admin - attributes - data types - detail - display „data type“ type
- \* [MC-15335] - admin - international - locale - prevent more than one locale with same language (without country)
- \* [MC-15347] - publisher - assortments - info popup for n2n, rangeitem should show attributes of the corresponding node
- \* [MC-15349] - mediatext - editing language dependent entity values
- \* [MC-15350] - mediatext - non-master-locale
- \* [MC-15364] - suite/pim - detail - states
- \* [MC-15369] - suite/pim/publisher/admin - result - table - select all function makes paging flicker
- \* [MC-15373] - cockpit - header - detail page navigation in context of hierarchy tab
- \* [MC-15374] - admin - attributes - attributes - detail - base data tab very slow with many usages
- \* [MC-15375] - pim - menu - last seen objects - arrows should always be green

- \* [MC-15393] - Root-User - Standard Einstellungen anpassen
- \* [MC-15396] - admin - assets - asset types - pipeline - target attribute - empty choice should be possible
- \* [MC-15423] - admin - actionlets - user#NNN not useful
- \* [MC-15435] - suite - Detail Page - Left Side - Side overview of the results jumps ! Should be improved
- \* [MC-15439] - admin - dashboard - widgets statistics - widget 1 - theme color
- \* [MC-15441] - admin - control - statistic - naming event types
- \* [MC-15445] - cockpit - notification - too many attached objects - page does not load
- \* [MC-15449] - pim - detail - hierarchy tab - link for name
- \* [MC-15461] - pim - detail - hierarchy tab - children count
- \* [MC-15463] - suite/pim/admin - detail - change history - don't display the term „UNDEFINED\_LOCALE“
- \* [MC-15470] - use multiple mediacockpit instances to authenticate via keycloak
- \* [MC-15480] - Falsche Betreffzeile bei nicht erfolgreichem Textpool-Import
- \* [MC-15482] - gui - dashboard - widgets - theme color for the remove widget action
- \* [MC-15483] - suite/admin - detail - hierarchy tab - link for name
- \* [MC-15489] - suite/pim - webdcm export - mandatory color does not respect mandatory from classificatoin
- \* [MC-15502] - suite/pim - search page - force delete - confirmation messages - improvement
- \* [MC-15515] - suite/pim/admin - add collection - width of fields should be reduced
- \* [MC-15530] - Watches werden nicht entfernt
- \* [MC-15531] - gui - mediatext - tab change should not show leave page confirmation after reset
- \* [MC-15532] - publisher - publication view - improvements
- \* [MC-15535] - publisher/import/projects - search result - name column -> fallback <Classname> [<id>]
- \* [MC-15541] - admin - license check
- \* [MC-15547] - admin - processes - background processes - do not „start“ background process if not active
- \* [MC-15549] - elasticsearch - points to address for production environments
- \* [MC-15560] - gui - detail - permissions improvements
- \* [MC-15561] - Keine Warnung/Fehlermeldung bei nicht Herstellung von Verknüpfungen über DCM-Import
- \* [MC-15568] - gui - detail - hint for text suggestions
- \* [MC-15587] - mediatext - import - report - wrong version message should include textset ID.
- \* [MC-15589] - mediatext - text sets - detail - translation - master language should not be available in the dropdown
- \* [MC-15590] - gui - detail - translation - usability improvement concerning the „copy“ button
- \* [MC-15593] - suite/pim - detail - Tab Permissions - improvements
- \* [MC-15607] - suite/pim - advanced search - numeric enumeration
- \* [MC-15616] - suite/pim - multi indexing - Betreff der Nachricht nach der Massenbearbeitung von Klassifikation ist „wird“
- \* [MC-15619] - Fehlermeldung bei nicht gefundenen Objekten/Assets (auch bei Verknüpfungen)
- \* [MC-15631] - admin - attributes - enumeration attributes - input tab - multi selection - add all selection options
- \* [MC-15919] - mediatext - text sets - filter on language?
- \* [MC-16964] - suite/pim - detail - links - paging size is not persistent across sessions
- \* [MC-17918] - gui - used email validator is too strict
- \* [MC-17937] - suite/pim - multi indexing - base data - log message improvement EN
- \* [MC-18748] - pim - multi indexing - validity - notification improvement for deleting values
- \* [MC-18789] - mediatext - UI translations
- \* [MC-19062] - admin - attributes - attributes types - attributes tab - label
- \* [MC-19071] - suite - detail - tab Object Assignment - button Link Assets - spacing
- \* [MC-19673] - core - mc11.1 - stackoverflow on startup with empty db
- \* [MC-19679] - admin - object relation types page crashes when no object hierarchies exist
- \* [MC-20790] - gui - mediatext - text toolbar - „revert“ button behaves not consistent with new text at empty field
- \* [MC-20878] - cockpit - Reporting - Anpassung der Farbe der Diagrammelemente bei Diagrammen
- \* [MC-20905] - systeminfo - database connection string is strange if hostname contains „database“
- \* [MC-20913] - admin - Users & Authorization - Users - detail - improvement for „ldap user = true“
- \* [MC-20917] - core - rest - insert does not work in cluster until at last one FTI search was performed
- \* [MC-20922] - admin - Control - System logs - Copy & Paste
- \* [MC-20925] - mediatext - detail - translation tab - remove master locale column
- \* [MC-20930] - gui - detail - translation tab - remove master locale column
- \* [MC-20960] - admin - Views / Workflow types - edit modal for view tab/section/edit & state - translation refinements for mediatext
- \* [MC-20973] - gui - detail - text suggestions - conceptual description
- \* [MC-20974] - gui - detail - hint for text suggestions - layout finetuning
- \* [MC-20994] - gui - detail - translation - languages with long names
- \* [MC-21004] - cockpit - dashboard - no widgets/empty page - wrong icon & text
- \* [MC-21008] - suite/pim - detail - attributes -OA - multi value price (dependent) attribute - only one row (initially) at
- \* [MC-21009] - core - textpool - migration - version schema not updated

- \* [MC-21015] - admin - users & authorization - users - search filter - external user
  - \* [MC-21016] - publisher - assortment view - Löschen von Sortimentknoten nicht möglich.
  - \* [MC-21021] - suite/pim - detail view - attributes tab - text / numeric enumeration - add new values - improvement related to the use of min. max. size (values)
  - \* [MC-21023] - suite/pim - detail view - attributes tab - text / numeric enumeration - add new values - more consistency
  - \* [MC-21024] - suite/pim - detail view - attributes tab - text / numeric enumeration - add new values - fine tuning
  - \* [MC-21028] - gui - translation tab - dropdown on the far right is cut off / should open to the left
  - \* [MC-21057] - better catch exception of asset no longer exists
  - \* [MC-21065] - core - workflow - exclusive count should (could) be evaluated per cluster node
  - \* [MC-21067] - suite/pim - advanced search - integer filters - rounding
  - \* [MC-21068] - suite/pim - side panel - advanced search - numeric filters - delete the "exact match" option
  - \* [MC-21109] - suite - shared asset selection - table with more than one derivate type
  - \* [MC-21112] - cockpit - header - menu - grouping title - improvement
  - \* [MC-21118] - cockpit - mediatext - text toolbar for language dependent fields - usage button - improvements
  - \* [MC-21131] - admin - attributes - attributes - force delete - improve the update in the tabs where the attribute is assigned
  - \* [MC-21148] - suite/pim - detail - Sortierung der Nodes in der Ergebnisliste von Verknüpfungen aus kommend
  - \* [MC-21160] - suite/pim - sidepanel - faceted search - Anzeige html Code in Facettensuche
- \*\* New Feature
- \* [MC-7502] - admin - suite / pim - Detail - Attribute Profiles - configure attribute profiles in portal
  - \* [MC-8036] - suite/pim - Detail - Views - Gemischten Views (Konfigurierbarer Tab)
  - \* [MC-10573] - mediatext - Side panel - Möglichkeit, formatierte Felder ohne HTML zu durchsuchen
  - \* [MC-13184] - mediatext - spreadsheet requirements
  - \* [MC-13639] - admin - Configuration - Views - Action rights (former: view action)
  - \* [MC-13668] - cockpit - processes - search
  - \* [MC-13698] - mediaimport - Imports - Side panel / search result
